

THE UPDATE

Capo Projects Group
July 2019

We're Growing!

Over the last several months a lot has changed at Capo Projects Group. The biggest news is our growing staff and our involvement in the communities we're a part of - both the construction industry and our local communities throughout the U.S. Read on to learn more about what's happening at CPG.

Mindfulness Meets Construction

Last month, CPG's Tom Huntington spoke at a CMAA Educational Panel devoted to the theme of mindfulness. Stacey Kesten, a mindfulness coach, led the panel, which discussed the importance of being a mindful leader. Tom discussed how as a leader at CPG, he makes it a priority to respect the time of others.

Community

CPG Staff and their families joined the Surfrider Foundation Earth Day beach cleanup at Bolsa Chica on April 20th. A small but mighty team we collected over 2 pounds of trash, and as an added bonus we got to spend some time together as a team outside the office.

White Papers

CPG has launched its very own series of white papers. Read highlights from two of our white papers below.

CPM | axis: Bridging the Schedule Gap is a White Paper on how CPMaxis helps bridge the gaps that exist as a result of siloed schedule data. Chase Wirtz explains how the use of technological solutions like CPM | axis ultimately leads to projects with more timely and accurate schedules, reducing the cost and time overruns experienced in the construction industry.

A Better Way to Manage Risk is a White paper by CPG's Chris McKee that does what it says: provides a better way to manage risk. Chris dives into the Monte Carlo Simulation, which more accurately quantifies risk by estimating the probability and impacts of potential outcomes through repeated sampling from a specified distribution.

CPG Academy

On April 4th CPG hosted its first CPG Academy training on the basics of Primavera P6.

CPG Academy courses are free and provide an opportunity to learn best practices and how to use the software that is essential to construction management and scheduling.

To find out when our next training will be, sign up for our mailing list, or visit <http://www.capoprojectsgroup.com/contact/cpg-academy/>

GO ANGELS

On Friday, June 7th, CPG staff, and their families got together to enjoy a Friday evening baseball game and cheer on the LA Angels.

CalCon 2019

CPG had representation at CalCon Expo on July 19th! This was our company's first booth and it was a great success! We're looking forward to having a presence at more conferences in the future.

Company Updates

In June, Chase Wirtz became the fourth partner at Capo Projects Group, and in July Chris McKee became our fifth partner.

Congratulations Chase and Chris!

CPG also welcomed two new members to our team this summer, Rita Waked and Shubham Tripathi.

Welcome Rita and Shubham!

Come and see us present at these upcoming conferences!
